### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: The newly cited references to Kobayashi et al., Taira, and Moriya et al. each show using a phase change material over a disk having both pits and grooves, but none of the references overcomes inadequacies expressed by the Board of Patent Appeals and Interferences that this phase change material would not be an obvious addition because none of the prior art suggests the ability of a phase change material to change the optical phase of the phase-change material in the positive direction.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
